Hoover Wins Right To Shift Appropriations for Building; Can Spend Only 116 Millions.

WASHINGTON, Dec. 18 .- (UP) President Hoover's relief program triumphed in both houses of congress today. It appeared that bills for expenditure of over \$160,000,000 may be placed on his desk for signature before Christmas Day, just a week away. Only the \$116,000,000 for public works will be immediately available,

The house on a party vote of 189 to 133 voted down a democratic amendment embodying the \$60,000,000 drouth relief farm loan bill as passed by the senate, and then with only six dissenting votes passed the \$30,000,000 loan fund bill approved by Mr. Hoover, which does not provide money for loans to prevent human suffering. The bill went to conference and house and senate conferees met at

Philip Forman, the federal district attorney who prosecuted the case of the United States vs. William Sprague and William Howey—the case in which Federal Judge Clark rendered his decision—made the appeal today. During the proceedings Judge Clark signed two orders. One, at the request of Sprague's counsel, quashed the indictment against Sprague who was charged with illegal transportation of beer. The other, at the request of the district attorney, provided for the appeal going directly to the supreme court without the usual intermediate stop at the circuit court of appeals.

BUSLINE OFFICIAL

Wahle Denies Jurisdiction of State on Terminal Site Issue; Supported by McDonald.

Bernard Wahle, vice president of the Greyhound bus lines in charge of activities in this section, Thursday answered charges contained in the recent statement issued by Chairman Perry, of the Georgia public service commission, setting forth the commission's reasons for refusing to approve the bus terminal site selected by the company.

Declaring that location of a site for the bus terminal was entirely beyond jurisdiction of the commission and that his company had no intention of submitting sites other than the one already selected, as requested not later than December 22, in the ruling published by the commission, Mr. Wahle stated he did not desire to oppose the commission, but would continue operation of the company as at present until the commission

approved.

In answer to the ruling set forth in Chairman Perry's statement that the temporary location of the Greyhound lines on Peachtree and Forsyth streets would have to be abandoned by February, the bus line executive said "nobody can regulate us off the street, but we hope to get into a permanent location on private prop-erty for the convenience of the pub-

selected by the company, the Greyhound lines is anxious to begin work on its proposed \$40,000 depot, Mr. Wahle stated.

"It is a matter of public interest that the work on the bus station be launched as quickly as possible. The employment that construction of the station would bring at this time is something more than any charity can do, that is, give workmen a job instead of alms. The construction would take from four to six months," Mr. Wahle said.

"To Provide Jobs.

"In addition to this, at least 12 more employes than we now have would be given work at the new depot, while concessions provided for in plans of the building would probably employ between 40 and 50 people." Mr. Wahle some out the traffic and traveling conveniences of the selected site and declared that "after many months of investigation it proved the only location that pleased every interested party except the commission."

In his answer to Perry's charge of delay Mr. Wahle is borne out by reference made in Commissioner McDonard and so made in Commissioner McDonard and warmer weather were the substitute as an an inversary of the 2-inch snow which fell last December on the twenty-second.

Rain and warmer weather were the substitute that ranged from a trace to 30 inches in parts of North Carolina.

Virginia and North Carolina, where the snow blanket was heaviest, already and cleared most of their roads and resumed highway traffic and resum

tion that pleased every interested party except the commission."

In his answer to Perry's charge of delay M:. Wahle is borne out by reference made in Commissioner McDonald's opinion which states: "The question as to the responsibility of delay as well as the question as to the particular or peculiar advantages of either of the several lots described in majority opinion may be dismissed in a word. In view of the present stage of the development of the motor carrier business, there has been no delay, up to the present time, for which apology is due or expected and as to the preferment of one location over the other, it has no place in this decision."

Tennessee, whose eastern half also was under the snow covering, had a prediction for that area of a colder Friday. Rain was forecast for that state, too.

Kentucky was due to get rain in central and eastern portions, and grow colder in the west today.

The dogs, a pair from Kilby prison at Montgomery, were turned loose on the trail this afternoon with armed men following on horses, but due to the speed of the dogs and the difficulty of traveling on horseback the desperadoes were able to shoot down the dogs before possemen came into sight.

Ranging Thursday between 28 and 32, the thermometer today is expected to climb up to 40 and not fall under freezing. The day will probably remain cloudy but rain should send the snow away by nightfall.

Atlanta's 2-inch snow, which fell Tuesday night, arrived six days too soon to serve as an anniversary of the 2-inch snow which fell last December.

LONDON, Dec. 18.—(P)—The house of lords, which is regarded by many Englishmen as a quaint survival of no particular political significance, today won a great victory over the house of commons and the Ramsay MacDonald labor government in particular.

MacDonald labor government in particular.

Announcement that the upper house had won its point was made in the commons tonight by William Graham, president of the Board of Trade, who said the administration proposed to agree with the lords on an amendment which prolongs the controversial dysstuffs act for another year.

This will be inserted in the expiring laws continuance bill and thus will retain dyestuffs duties, which normally would have expired January 15, for 12 months longer. The government had intended that the dyestuffs act die a natural death on that date.

The eruption was accompanied by loud rumblings which were increasing, but it was believed that the rain that subsided.

The victims were engulfed by a lava stream 200 yards wide and 70 feet high, which surprised them as they were working near a village five miles from the crater. The fiery wall, containing millions of tons of red-hot liquid, advanced so rapidly that they were unable to escape.

Tonight the volcano presented a terrifying sight. The volcano was covered by a huge black cloud which was stabbed from time to time by vivid flashes of lightning.

INDUSTRY MUST AID DISPLACED MEN-BAKER

NEW YORK. Dec. 18.—(P)—Industry, Newton D. Baker, former secretary of war, said today, should bear its share of responsibility toward the employe displaced by machinery.

"The advantages and gains which come from mechinery have no right "The advantages and gains which come from machinery have no right to be all velvet to industry unless they are velvet to society," he said. "Industry has no right to take all the gains that come from substitution of machines without bearing a substantial part of the consequent dislocation of human element, as far as it can be wisely assessed." Education in the form of substitute training is the only solution to the problem, he added.

Hess, who de-ciared that as a result of his re-search in the field of cosmic ultra-radiation he had discovered a peculiar radiation of tremendous pene-trative force.

iar radiation of tremendous penetrative force.

He startled the society further with his assertion that this great force undoubtedly must be of extraterrestrial origin, since its intensity increases with distance from the earth's surface.

Professor Hess found this cosmic ultra-radiation to be 10 times as penetrative as the strongest radium rays, piercing 80 inches of leaden plate with a loss of only half their intensity.

He believed the wavelength of these rays to be almost unbelievably short, probably one one hundredmillionth that of ultra-violet and one-thousandth that of radium rays.

OXFORD, Mass., Dec. 18.—(P)—
A romance that thrilled townsfolk here Monday was stripped of its glitter today.
Local newspapers printed in detail an account of the marriage of Miss Barbara Buffum, daughter of James C. Buffum, bank cashier, to "Sir Wilton Harold Bramwell, a commander in the royal navy."
Today the former Miss Buffum was missing and her parents expressed the opinion that she had been the victim of a hoax. Mr. Buffum said he understood that his new son-in-law was a chief steward's clerk on the liner Mauretania and was presumably aboard his ship on the high seas.

The girl's name did not appear on the passenger list of the ship, and officials of the Cunard line said it was improbable that she was aboard, as only officers are permitted to take their wives to sea.

Finally someone among the line of razzers gave him his clue.

"Where did you get THAT HAT?" a man sang as Steve passed. Involuntarily the real estate man's hand went to the brim of his hat. He turned to a sidewalk chewing gum mirror and took a look. Then he rushed back to his office, down a rippling aisle of gibes.

Mr. Glass had absent-mindedly put on his last summer's straw.

The senate appropriations committee gave approval to the proposal and sent it to the senate floor.

This appropriation would swell the total given the board thus far to \$400,000,000 and it plans to ask for the remaining \$100,000,000 of the \$500,000,000 authorized for use in stabilization, co-operative marketing and association loah operations.

Testifying before the house appropriations committee to investigate cermidable penalties, to abandon their purpose, on the singular plea that it must fiscally test for the additional funds, Chairman Legge said the board was making some progress in bringing about relief.

The board has been able, he said, to maintain wheat priges in this country artificially. He said if it had not been for the board's grain stabilization efforts the price of wheat would be 25 cents a bushel.

"It is true today," Legge-said, "that low as the price is, it is artificially maintained, not only on wheat but of the remained to the grains."

Presenting results of a study of juvenile delinquency, Miss Abbott said "stealing" and "acts of carelessness" were found to be the chief stumbling blocks for boys. "Running away," being ungovernable," and "sex offenses" were the outstanding causes of arrest for young girls, she said. These conclusions were based on 46, 1000 delinquency cases hadded by 98, 1000 delinquency cases hadded by 98. 000 delinquency cases handled by 96

As a result of the maternity and infancy work carried out by the bureau under the Sheppard-Towner act, reau under the Sheppard-Lowner act, which calls for joint federal and state support of the work, Miss Abbott said, 1,600 health centers for women and children have been established during the last seven years.

Famous Polish Flyer

Placed Under Arrest

WARSAW, Poland, Dec. 18.—(UP)
The famous Polish aviator, Major Casimir Kubala, was under arrest tonight but the cause was not revealed.

Military police arrested Kubala, who made two unsuccessful attempts to fly across the Atlantic ocean to New York in company with the late Major Louis Idzikowski.

The action caused a sensation throughout Poland.

Major Kubala and Major Idzikowski first attempted a flight from Le Bourget field, France, to New York, in August, 1928, when they were forced down by a faulty fuel line off Cape Finisterre. Spain, where a German steamship rescued them.

Again, in July, 1929, they took off from Le Bourget in the great white plane, Marshal Pilsudski, and were followed within a few hours by Dieudonne Costes and Maurice Bellonte in the Question Mark. The Question Mark urned back and reached safety after a long battle with storms but the Holish craft continued to the Azores, where it was wrecked in landing. Idzikowski was killed and Kubala was injured.

Glibert H. Beesemyer, who previously announced he would plead guilty to fhis confession that he embezzica \$8,000,000 from the Guaranty Building and Loan Association of Los Angeles, of which he was head, today disclosed he had changed his plans.

Beesemyer said through his attorneys he would plead not guilty and asserted he was motivated by a desire of make restitution as quickly as possible. He contended that if he pleaded guilty to was extitution as quickly as possible. He contended that if he pleaded guilty he would be sentenced to prison immediately, but that a not guilty plea would delay his punishment and permit his presence here to assist in untangling the affairs of his wrecked company.

Attorneys for Beesemyer asserted them.

All-Star Eleven.

NEW YORK, Dec. 18 .- (AP)-Col-

lier's Weekly today made public its All-American football selections for 1930, as named by Grantland Rice. The first team selections follow:

Ends-Dalrymple, Tulane, and Fes-ler, Ohio State.

Tackles-Sington, Alabama, and

Center-Ticknor, Harvard.

California.

Guards-Koch, Baylor, and Beckett,

Quarterback—Carideo. Notre Dame. Halfbacks—Pinckert, Southern Cali-fornia, and Dodd, Tennessee.

Fullback-Macaluso, Colgate.

The magazine, through its "selection committee," named two additional players as "utility men." They are Mel Hein, Washington State's center, as utility lineman, and Orville Mohler. Southern California quarterback, as utility back.

"Ticknor and Carideo," the committee set forth, "are the only names on this year's list who also appeared on the All-American last year. Ticknor last year had the highest percentage rating of any man on the team and this year he is tied with Fesler for the same honor, receiving a percentage of 92.5. The other players were rated as follows: Hein 91.7, Carideo 91.4, Sington and Dodd 90.8, all others 90."

Rice's All-American team carries more weight than any other. Rice succeeded to the mantle of Walter Camp, who originated the selection idea. Camp's All-American was the official team, carrying as it did the weight of prestige and tradition.

When Camp passed on Rice followed him and his selections are the most popular and are generally looked on as the nearest "official" selections made.

Many others, of course, are selected

each year by coaches and committees of coaches, but the All-American pub-lished in Collier's magazine is the one the boys prefer to win positions on.

TUSCALOOSA, Ala., Dec. 18 .- (AP With a final drill beneath drab skies, Alabama's Crimson Tide today put aside cleats and moleskins until De-cember 23, when work will be re-sumed at Pasadena, Cal.

There will be no rousing send-off tomorrow as the Tide rolls westward to engage Washington State at Paswest coast in six years.

Cougars Drive, Disregarding "Dope."

PULLMAN, Wash., Dec. 18,—(A)—
If the Washington State Cougars are being tagged the under-dog for their clash with Alabama's Crimson Tide at Pasadena New Year's Day, it doesn't seem to bother Coach O. E. Hollimpher.

Hollingbery.

"So far this week." the Cougar mentor said, "the men have been showing marked improvement over any practice of the past two mouths, and I hope this is an indication the team is finding itself and gathering the polish and finese present the polish and finese the second services."

Tulane To Play

LOS ANGELES, Dec. 18.—(UP) will play its second practice game to-might in Gordon, Ga., with the Gordon of Coast conference football champion, will play Tulane University at New Orleans on December 5, 1931, it was announced here today by Earl Foster, graduate manager of W. S. C. Washington State, undefeated, plays Alabama in Pasadena on New Year's Day.

Furman Re-elects Dad Amis Coach

GREENVILLE, S. C., Dec. 18.—(AP)—The Furman University Athletic Council today re-elected "Dad" Amis as head football couch.

The contract did not specify any certain length of service. Amis' three-year contract expired this fall.

Amis is a former Georgia Tech star and has had good success at Furman. His team won from Florida this past fall.

Alabama's football team yesterday completed practice on the home field in preparation for the Rose Bowl game without having suffered a really serious injury to any important player.

This must be gratifying to the coaches. Coaches always are apprehensive about practice before a big game, especially a game of such magnitude as this Pasadena expedition.

Players expecting to make the trip naturally are afraid of injuring themselves and being left behind or incapacitated for play. So they go into their scrimmages saving themselves a bit. The result is tightened muscles and increased danger of injury.

It is said that football players incur fewer injuries when playing at top speed than when in scrimmage. In ordinary scrimmage a player will not hustle nor hit as hard as under the stress of an actual game.

And one can believe that the Tidesmen were unconsciously taking good care of themselves on the eve of setting out for California. A wrenched knee might mean the man would have to listen to the game over radio.

TIDE WILL NEED FULL STRENGTH.

Alabama will need full strength for the Rose Bowl game. Coach Babe Hollingbery and his Washington State boys are coming to the south of California "to show those birds we can really play football and that our defeat of U. S. C. was no

Coach Babe expressed those sentiments to W. A. Alexander of Tech when he was out there recently. The Cougar pilot has been writhing under the scorn tossed at him and his team by those dear Southern California sports writers who said his victory over their beloved Trojans was an accident.

Washington State will have two incentives; one will be to beat Alabama, but the more acidic tonic will be the chance to show up the natives.

So it will be no ordinary Rose Bowl game—this one that Alabama must play. The Crimson Tide may have a harder time than its two predecessors in winning; certainly it will encounter enthusiastic opposition.

Meen Knocked Out By Primo Carnera

LONDON. Dec. 18.—(P)—Primo Carnera, Italian man-mountain. brushed aside the puny efforts of Reggie Meen, English heavyweight, in less than two rounds at Albert hall tonight. The referee stopped the unequal struggle after Meen had been floored twice in the second round.

But it was a contest between a mountain and a mouse and Meen never really had a chance. Carnera settled down to business in the second round and floored his man twice and the big crowd yelled for the referee to halt the carnage. Carnera showed improvement in speed and footwork.

Never before has this very sport-minded republic been offered such unique sights as that afforded by the college football players of the republic.

We have had games for charity in which charity actually received the money obtained at the gate. Two big games have netted more than \$700,000 for charity. Other games are yet to be played. It is reasonable to assume that football will have contributed a million dollars to various relief organizations.

All this is very unusual indeed and is not to be confused with other sport events of the past in which charity was the supposed beneficiary. In the football games the charities have actually received the money.

Prize fightes of the past have offered the usual spectacle of the prize fighters receiving guarantees and training expenses, which play havoe with the net. Charity always receives a share of the net receipis. And by the time the smart managers have given the "net" the works it is usually in a very lugubrious condition, indeed.

League Will Take Over Vol Franchise Unless Muddle Is Cleared

BANK FAILURE CAUSES 'LOSS' OF CLUB STOCK

No One Able To Find Who Really Owns

By Blinky Horn.

NASHVILLE, Tenn., Dec. 18.—
Year after year the burning topic of debate around the hot stove league in this municipality has been "What sort of team will those Vols have?"
The question row is will those Vols. The question now is will those Vols

The question now is will those vois have a team?
Prexy John D. Martin of the Snow-ed Under Society of Swat propounded that query to no end of people here yesterday. And not one could answer

the conundrum.
So Prexy Martin went away after telling the home-town boys that they were skating on thin ice concerning them.

Some of the home-town boys are in a far worse predicament than skating on thin ice. They are sunk.

Prexy Martin wouldn't say the homefolks were in imminent danger of losing their franchise. But he did say that the league might step in and say that the league might step in and the charge of the situation unless a Carideo has informed Purdue autority.

homefolks were in imminent danger of losing their franchise. But he did say that the lengue might step in and take charge of the situation unless a positive decision was reached about the future plans of the Vols.

Most everybody said they certainly hoped there would be a team here in 1931. Prexy Martin said ditto. But no one was able to assure him that there would be a team. The general verdict was that baseball would spring up in Sulphur Dell next spring. But not a gent to whom Prexy Martin spoke could inform him as to who would manage it. Maybe Santa Claus will bring the Vols a new owner and manager just any sort of owner and skipper.

From all indications this is to be the most important clash of negro heavyweights in Atlanta's in-and-out fistic history, placing, as it does, Godfrey in an embarrassing position. Defeat by Wright would be a blow to the Black Panther of Lieperville; victory, for Wright, would mean a big step-up in the pugilistic rankings and place him at the head of the negro challengers for Max Schmeling's crown.

THREE TRAINERS.

(Dedicated to the closing shadows and the rough highway of 1930-and Pacific Coast Only Other whatever 1931 has to offer.)

My name is Trouble—I'm a busy bloke—I am the test of courage and of class; I bind the coward to a bitter yoke, I drive the craven from the crowning pass: Weaklings I crush before they come to fame, But as the red star guides across the night I train the stalwart for a better game, I drive the brave into a harder fight.

My name is Hard Luck-wrecker of rare dreams-I follow all who seek the open fray;
I am the shadow where the far light gleams For those who try to find the softer way; Quitters I break before they reach the crest, But where the red field echoes with its drums I build the fighter for the final test And mold the brave for any drive that comes.

My name's Defeat-but through the shadowed night, To those who know, I'm something more than friend; For I can build beyond the wrath of might And sweep away all yellow from the blend; For those who quit, I am the final blow, But for the brave who seek their chance to learn, I show the way, at last, beyond the foe To where the scarlet flames of triumph burn.

MAX SCHMELING'S OPPONENT.

AMING or attempting to name Max Schmeling's opponent this far in NAMING or attempting to name Max Schmeling's opponent this rar in advance is, of course, ridiculous. Jack Sharkey may be the best heavyweight in the country, but his last official or unofficial punch was a foul that cost him the title

Just at the moment Sharkey and Stribling are the two leaders and if nothing else happens they will have to settle the argument.

There is still the outside chance that young Max Baer will crowd his way into the debate or that Carnera will return and prove

that he is either a dangerous contender or a clown.

There are too many possibilities to nominate any one man from the since no one challenger yet has proved his place or his right to

Max Baer, for one example, could churn up the situation by flattening Ernie Schaaf tonight, which he will hardly do. Schaaf has not been a member of the flattened class. He may not be any whirlwind, but he can turn in his share. If Baer can stop or beat up Schaaf it will be a better job than any other heavyweigh around has turned in for many months.

THE BIG MARGIN.

THE big margin that Bobby Jones carried above the remainder of the

field in the A. A. U. popular vote is easy to understand.

To accomplish his worthy purpose he had to prove his place in four different campaigns from May to September against the pick of the field in both amateur and professional ranks. He had more class to meet and beat than any other champion, when you consider the number of great golfers there are between Scotland And golf is a game where a change in touch and timing can attack

any star on any given day, and one off day is all that is needed to wreck Bobby Jones had to walk a high wire from spring to fall without taking a tumble. His achievement will make 1930 one of the notable years

WHEN the Four Horsemen last battled for Notre Dame they averaged 161 pounds to the man. A few nights ago we ran across them in a hotel room talking over a few old games. In place of gaining they had lost about a pound, their average weight being 160 pounds. Elmer Layden had lost weight since his last collegiate charge through the lines, while Stuhldreher, Miller and Crowley looked to be almost the same as they were in 1925. Crowley sends his Michigan State team against the Army next fall and the Army can look for a battle. As it was, Michigan State escaped an unbeaten season by only one point after facing a hard schedule, which included, among others, Michigan, Colgate and Georgetown. and Georgetown.

This bunch was outweighed more than 26 pounds to the man by the 1930 Notre Dame backfield, but it had a certain flare and flame and beauty of action that no backfield has yet reached. And beauty of action

Since all parts of the country have been adversely affected by the business depression, and since there have been crowd gains in some sections and losses in others, it could be assumed that the "box office" appeal of the game is reflected directly in the success or lack of it enjoyed by the several colleges.

In this connection it is interesting to observe that the attendance figures almost exactly parallel the status of the game itself in the various sections.

LOS ANGELES, Dec. 18.—With the announcement of Director of Athletics Willis O. "Bill" Hunter that the University of Georgia's powerful football team had been signed to play the Trojans at the Los Angeles coliseum on December 12 next season, the University of Southern California now has one of the toughest schedules to be taken on by any team in 1931.

Stegeman, athletic director of the southern institution, met with Director Hunter, of S. C. Both men, incidentally, are members of the national football rules committee, Hunter representing the Pacific coast and Stegeman representing the southeastern states. Approval of the university authorities of both Southern California and Georgia for the game was announced today by Hunter.

Nine hard games and only one "breather," that one coming between the Stanford game and the trip to South Bend to play Notre Dame, comprise the 10-game schedule now completed by Director Hunter. Eight of the 10 games are to be played at the local coliseum, the Trojans' home field, which in 1931 will have a capacity of more than 100,000.

Real Heavyweight Fight Scheduled at Auditorium; Prelims Good.

George Godfrey, world's champion among the negro heavyweights, and Ed (Bearcat) Wright, who ranks second best, meet tonight in a 10-round battle for supremacy in the city auditorium. NO HELP.

Mr. Henry Weber, who staged a charity show in Atlanta, failed to have a single organization hustle his pasteboards for him. Mr. Weber was offering half the gross receipts.

This stamped Mr. Weber as a most unusual promoter. No other boxing promoter ever did it before. Neither did any other wrestling promoter for that matter.

Mr. Weber got no help from anyone but the newspapers. And when he had paid out half his gross he found that he still owed some \$400. So he dug that up himself.

Most of the so-called over-emphasis in the sport comes from the faculty men who arrange money-getting schedules without regard to rivalries or the welfare of the teams.

whatever 1931 has to offer.)

My name is Trouble—I'm a busy bloke— I am the test of courage and of class; I bind the coward to a bitter yoke,

I drive the craven from the crowning pass; Weaklings I crush before they come to fame, But as the red star guides across the night I train the stalwart for a better game, I drive the brave into a harder fight.

My name is Hard Luck-wrecker of rare dreams-I follow all who seek the open fray; I am the shadow where the far light gleams For those who try to find the softer way; Quitters I break before they reach the crest, But where the red field echoes with its drums I build the fighter for the final test And mold the brave for any drive that comes.

My name's Defeat-but through the shadowed night, To those who know, I'm something more than friend; For I can build beyond the wrath of might And sweep away all yellow from the blend; For those who quit, I am the final blow, But for the brave who seek their chance to learn, I show the way, at last, beyond the foe To where the scarlet flames of triumph burn.

MAX SCHMELING'S OPPONENT.

AMING or attempting to name Max Schmeling's opponent this far in Naming or attempting to main that advance is, of course, ridiculous. Jack Sharkey may be the best heavyweight in the country, but his last official or unofficial punch was a foul that cost him the title

Just at the moment Sharkey and Stribling are the two leaders and if nothing else happens they will have to settle the argument. There is still the outside chance that young Max Baer will crowd his way into the debate or that Carnera will return and prove

that he is either a dangerous contender or a clown.

There are too many possibilities to nominate any one man from the since no one challenger yet has proved his place or his right to

Max Baer, for one example, could churn up the situation by flattening Ernie Schaaf tonight, which he will hardly do. Schaaf has not been a member of the flattened class. He may not be any whirlwind, but he can turn in his share. If Baer can stop or beat up Schaaf it will be a better job than any other heavyweight round has turned in for many months.

THE BIG MARGIN.

THE big margin that Bobby Jones carried above the remainder of the I field in the A. A. U. popular vote is easy to understand.

To accomplish his worthy purpose he had to prove his place in four different campaigns from May to September against the pick of the field in both amateur and professional ranks. He had more class to meet and beat than any other champion, when yo consider the number of great golfers there are between Scotlan

THE PASSING YEARS.

WHEN the Four Horsemen last battled for Notre Dame they averaged VV 161 pounds to the man. A few nights ago we ran across them in a hotel room talking over a few old games. This looked to be a good spot to figure out just what the years had packed on in the way of weight, as they so often do with the college athlete.

In place of gaining they had lost about a pound, their average weight being 160 pounds. Elmer Layden had lost weight since his last collegiate charge through the lines, while Stuhldreher, Miller and Crowley looked to be almost the same as they were in 1925. Crowley sends his Michigan State team against the Army next fall and the Army can look for a battle. As it was, Michigan State escaped an unbeaten season by only one point after facing a hard schedule, which included, among others, Michigan, Colgate and Georgetown.

This bunch was outweighed more than 26 pounds to the man by the 1930 Notre Dame backfield, but it had a certain flare and flame beauty of action that no backfield has yet reached. And beauty of action

has its place in sport as well as might or power.

Since all parts of the country have been adversely affected by the business depression, and since there have ness depression, and since there have been crowd gains in some sections and losses in others, it could be assumed that the "box office" appeal of the game is reflected directly in the success or lack of it enjoyed by the several colleges.

In this connection it is interesting to observe that the attendance figures almost exactly parallel the status of the game itself in the various sections.

Eastern football is not the predomi nant game it once was. Eastern crowds are smaller.

Southern football is of a better Southern rootonic so it a better brand then ever before. Southern sports enthusiasts, in increasing num-bers, attend the games. Pacific coast football is becoming more and more devastating, effective and spectacular. The crowds grow

Announcement.

LOS ANGELES, Dec. 18.—With the announcement of Director of Athletics Willis O. "Bill" Hunter that the University of Georgia's powerful football team had been signed to play the Trojans at the Los Angeles coliseum on December 12 next season, the University of Southern California now has one of the toughest schedules to be taken on by any team in 1931.

Arrangements for the Trojan-Georgia game were tentatively made here

Arrangements for the Trojan-Georgia game were tentatively made here recently when H. J. Stegeman, athletic director of the southern institution, met with Director Hunter, of S. C. Both men, incidentally, are members of the national football rules committee, Hunter representing the Pacific coast and Stegeman representing the southeastern states. Approval

ing the southeastern states. Approval of the university authorities of both Southern California and Georgia for

Southern California and Georgia for the game was announced today by Hunter.

Nine hard games and only one "breather," that one coming between the Stanford game and the trip to South Bend to play Notre Dame, comprise the 10-game schedule now completed by Director Hunter. Eight

of the 10 games are to be played at the local coliseum, the Trojans' home field, which in 1931 will have a ca-

pacity of more than 100,000.

The Southern California-Georgia game is expected to prove a colorful windup to the Trojans' 1931 season.
Coach H. J. Mehre, a product of Notre Dame, has had a flashy eleven at

the Athens institution for several sea

sons.
Director Hunter announced the 1931 Southern California football schedule as follows:

liseum.
October 3—Oregon State at S. C.
October 10—Washington State at S. C.
October 17—Oregon U. at S. C.
October 24—California at Berkeley.
November 7—Stanford at L. A.
November 14—Montana at L. A.
November 21—Notre Dame at South Ben!
December 3—Washington U. at S. C.
December 12—Georgia U. at S. C.

Trading remained fairly active, the day's transfers aggregating 763,300 shares. Oils and several of the industrials and specialties made marked progress, but the list was inclined to yield to profit taking in the last hour, particularly the utilities.

Electric Bond & Share closed a fraction lower after recording a temporary gain of 13-4. American Gas & Electric sold up 11-2, then lost its gain. Niagara Hudson showed little recuperative power, closing a shade lower. Consolidated Gas of Baltimore, Tampa Electric, Peoples Light A, and Central Public Service A gained a couple of points, but the last named lost some of its advance. European Electric dropped 3 points to a new low at 67-8.

In the oils, Vacuum shot up 4 1-2 points then slipped back 3 from the top. Gulf and Humble gained about 2 each. Standard of Ohio closed up a point, and Indiana up 1-2. Cities Service rallied nearly a point to 161-4, but closed at 157-8. Cosden preferred, however, tumbled 10 3-4 to a new low at 10 1-4.

Among the industrial specialties, Anglo-Chilean Nifrate shot up about 3 points to 11, and retained most of its gain. Deere and Lehigh Coal advanced 2, and Driver Harris 4. Aluminum Co. rallied 10 points. 57 Am Equilies

the most heartening developments in the financial market today.

Stocks, on the momentum of Wednesday's spectacular climb, rallied briskly, only to lose a large part of their gain when purchases made for a trading turn were sold. The net advance for the session averaged about a point, although numerous issuess were no much more than that. Sales totaled 3,200,370 shares.

Wall Street's second thoughts on the rebound in stocks confirmed disfirst opinion, namely, that it was due to a badly overcrowded short position. At their highest levels of the day prices of some stocks were 10 to 30 points above Wednesday's lows. The sharpes trenction came in the final hour when prominent industrials lost all but a fraction of their 2 to 3-point advances, yet the market still retained enough vitality to close generally above the day's lowest quotations. An exception was the weakness of the coppers, Anaconda and American Smelting sagging sharply.

The most spectacular stock today was Auburn. Opening at 101, up 2 points, it soared to 119 3-4 as shorts took a squeezing and then fell back to 112 for a net gain of 13. Its Wednesday low was 89. J. 1. Its Wednesday low was 90. J. 1. Case was another wide mover, although the 12-point rise was halved. Stocks like American Can, Westinghouse, General for its was halved. low reached yesterday. The volume of business was large.

The broadest demand developed for railroad mortgages and advances of from 1 to 2 points were numerous and in some were larger. Bonds making a strong recovery included various issues, of the Baltimore & Ohio, Canadian National, Canadian Pacific, Chesapeake & Ohio 4 1-2s, Burlington, Chicago and Northwestern Big Four, Erie, Louisville & Nashville, Missouri Pacific, Nickel Plate, Pennsylvania, Southern Pacific, and Western Maryland.

The market was not without its soft spots. A few low grade rails and speculative industrials dipped to new lows for the year and the movement in the foreign list remained irregular. Some Latin Americans, notably Bolivians and Peruvians, rallied charply. German bonds joined the upward movement and the 5 1-2s and some others in, the group closed more than a point higher.

JACKSONVILLE, Fla., Dec. 18.—
(AP)—Florida's golden citrus crop is pouring into the markets of the nation and gold to the amount of a quarter of a million dollars a day is coming back into the state, the state market ing bureau estimated here.

One-third of the crop has gone to market and the Florida citrus industry has received between \$15,000,000 and \$20,000,000 in return for it according to the marketing bureau's estimate.

The whole 1930 crop will return between \$45,000,000 and \$80,000,000, the estimate said.

An Anchor against the Tide

15% more revenue from Gas and Electricity

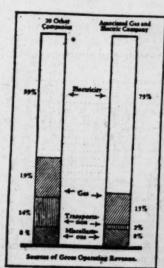

TT 7HEN good business recedes, it is best to have investments in an industry that holds like an anchor against the tide.

Electricity and gas are such industries. During 1930 general business activity was 10% below normal and 17% below its 1929 level. Yet during the first ten months of 1930 the electric light and power industry's gross revenue increased 3.9% over 1929. This industry has never shown a decrease in annual revenue.

Gas also shows stability of revenues. During the first nine months of 1930, manufactured gas companies had sales about 1% greater than

for the corresponding period of 1929. In view of the re-

markable stability of the revenues of gas and electric industries, it is desirable to invest in those public utility companies that derive the largest proportion of their income from these two sources.

Reference to the chart shows that of the total gross revenue of the operating properties of the Associated Gas and Electric Company, 75% is derived from the sale of electricity and 15% from the sale of gas, a total of 90% from these preferred types of business. Corresponding figures for 20 leading utilities as a group show 59% of gross revenue from electricity, 19% from gas, a total of 78%. The strong position of the Associated

Company is reflected in the earnings available for the payment of bond interest. Earnings, "over-all", after depreciation are 2.01 times bond interest requirements compared with 1.89 times

for bonds of the 20 other utilities as a group. To enable investors to

study the sound investment merits of these bonds we offer a comparative analysis of Associated bonds and other utility bonds, based on tests such as are used by insurance companies and investment banking houses.

A copy of the analysis, which consists of 10 plate charts with complete explanations, may be obtained by writing for folder L-140.

He of the black mane cocked his head and moved He of the black mane cocked his head and meved stealthily forward. At that very instant, Tarzan of the Apes had hurled the spear he had taken from the black into the council chamber of the gorilla-men. With rage and consternation the Bolgani saw it bury itself in the heart of their Emigani saw it bury itself in the heart of their Emigani saw it bury itself in the heart of their Emigani saw its Black-maned lion. At Tarzan's side was the Gomangani whom he had terrified into any sound. Moving swittly, he sometimes stopped to smell and listen. And thus at last he came to a high wall, along which he sniffed, until the wall was broken by a half-opened gateway, through which he passed. Before him loomed a great building. As he stood watching and listening, there broke from the interior the thunderous roar of a second lion. side was the Gomangani whom he had territories service. As Tarzan rushed forward toward LA, this black cried to his fellows: "Help this stranger free his mate and you may escape from the Bolgani

The other Gomangani hesitated. Targan had reached LA's side and was dragging her toward the dais where he hoped to make a momentary stand against the fifty Bolgani who were now rushing forward. "Slay the three who sit upon the dais." he wild be the Comangani "Slay the middais!" he cried to the Gomangani. "Slay you wish your freedom! Slay them if you wish your freedom! Slay them if you wish to live." The ape-man's authoritative voice, the maglive." The ape-man's authoritative voice, the magnetic appeal of his personality, his natural leader-ship—all won the blacks for the brief instant that was necessary to turn them upon the hated authority that the three Bolgani upon the dais represented. As they drove their spears into the shaggy bodies of their former masters they became then and forever the creatures of Tarzan of the Apes; for they knew that there could be no hope for them after this in the land of the Bolgani. With one arm about LA, the ape-man carried her to the dais and drew his spear from the dead lion. Then, turning about and facing the advancing Bolgani, he placed one foot upon the carcass of his kill and raised his voice in the terrifying victory cry of the great apes of Kerchak. MERCHANDISE

When the police came so great was the fear of the natives that they refused to reveal their "king's" hiding place but the officers finally ran him down. He put up such stubborn resistance that he could not be taken alive.

REVISED CITRUS RATES

SUSPENDED BY I. C. C.

**WASHINGTON, Dec. 18.—(P)—

**Revised freight rate schedules on citrus fruits shipped in boxes from southwestern destinations in carlots today were suspended by the interstate commerce commission.

**The suspension was from December 19 until July 19, 1931.

**Shippers complained that under the order fixing the revised rates they mere deprived of the right to ship fruits packed in baskets, bulk or otherwise except at a higher rate, whereas shippers in other sections of the country could use baskets.

The shipments to which the order applied originated on the Missouri Pacific and Southern Pacific railroads.
